---

# Erreka Vision

---

To be an **open, agile innovation platform** that promotes new businesses and business transformations, always loyal to cooperative principles.

Innovative, sustainable, digital, committed, attractive, competitive, business driver, agile.

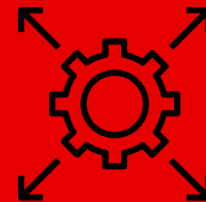

---

# Erreka We Are Growth

---

A consolidated group  
committed to  
sustainable growth.  
**Diversification** in products,  
services and markets is a  
strategic area for us.

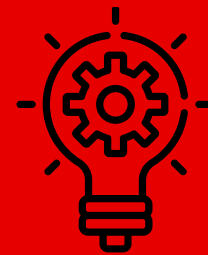

---

# Erreka We Are Innovation

---

60 years committed  
to innovation  
developed alongside our  
customers, as we are  
**partners** in the search for  
solutions to their most  
complex challenges.

---

# Erreka We Are Prosperity

---

We create prosperity  
for the regions:  
A competent, agile, flexible  
organization with a local and  
international vision: **We create  
quality employment and social  
welfare.**

**2013**

Integration of  
Erreka automation  
and Erreka  
automatic doors:  
**Erreka Access  
Automation**

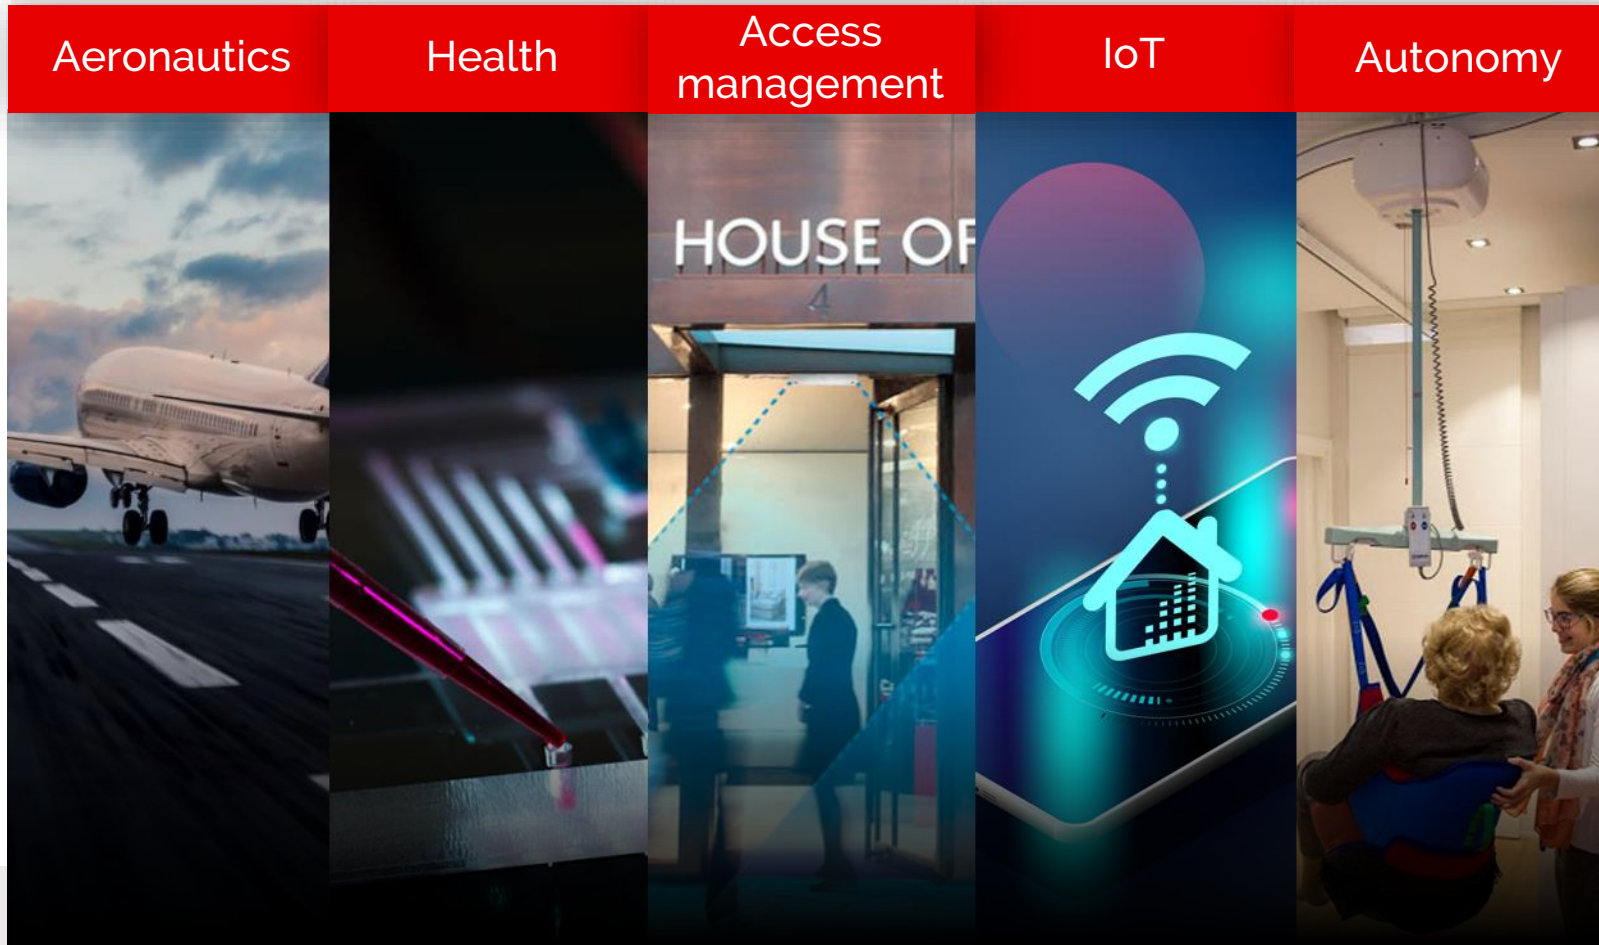

Bergara  
**2018**

New  
production  
plant  
**Erreka China**

Zhuhai, China  
**2019**

# 60 years and many more...

We continue  
to generate  
growth.

2021...

# We operate in the Most Demanding Sectors

Such as automotive, health,  
personal mobility, aeronautics,  
energy and infrastructure,  
among others.

Our technological path  
alongside our customers and  
partners is guided by the  
concept of **open innovation**.

Part of our profits are  
set aside for innovative  
projects, strategic  
partnerships and high  
technological value  
projects.

# 4 Business

Fastening

Erreka Plastics

ERREKA is made up of four business units, each managed independently and with capacity to compete in international environments.

Access Automation

Adom

# Fastening

High-level fastening, reliability and safety.

Monitoring systems for critical joints.

Our i-bolt system provides full reassurance in fastening your bolted joints.

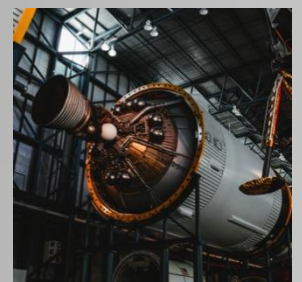

We bring added value in sectors such as:

- Oil & Gas
- Wind power
- Submarine
- Construction
- Motors
- Thermal machines

...

We apply:

- Ultrasound technology
- Monitoring systems
- Wireless technology development
- ...

# Access Automation

Design, manufacture and installation of systems for automated entrances.

Access management and control.

- Solutions for people and vehicles.
- Solutions for shopping centers, transport stations, hospitals, industry, residential, etc.
- We handle over 8000 references
- Over 3000 customers
- Over 50 countries
- 8 national offices
- 6 international offices

# Plastics

Over 50 years' experience in developing and producing technical plastic parts for our customers.

- Highly automated production cells.
- Multilocalized, global proposal.
- Focused on improving our customers' competitiveness.
- Multidisciplinary team: design, manufacturing, robotics.
- Advanced manufacturing center.

# Adom

We adapt public and private environments to ensure accessibility.

Mobility and wellness solutions.

- We offer comprehensive solutions for personal autonomy or care based on specific needs related to mobility or access.
- We are a benchmark company in disability products and technology.
- We believe everyone is different, and it is the environment that must adapt to people.

---

# Why trust in Erreka?

01

---

We are an agile, ever-adapting organization.

A multidisciplinary team that works together and adapts to bring value to even our most demanding customers.

---

# Why trust in Erreka?

02

---

We always do  
what we say.

Our culture characterizes the way we  
do business: always true to our word.

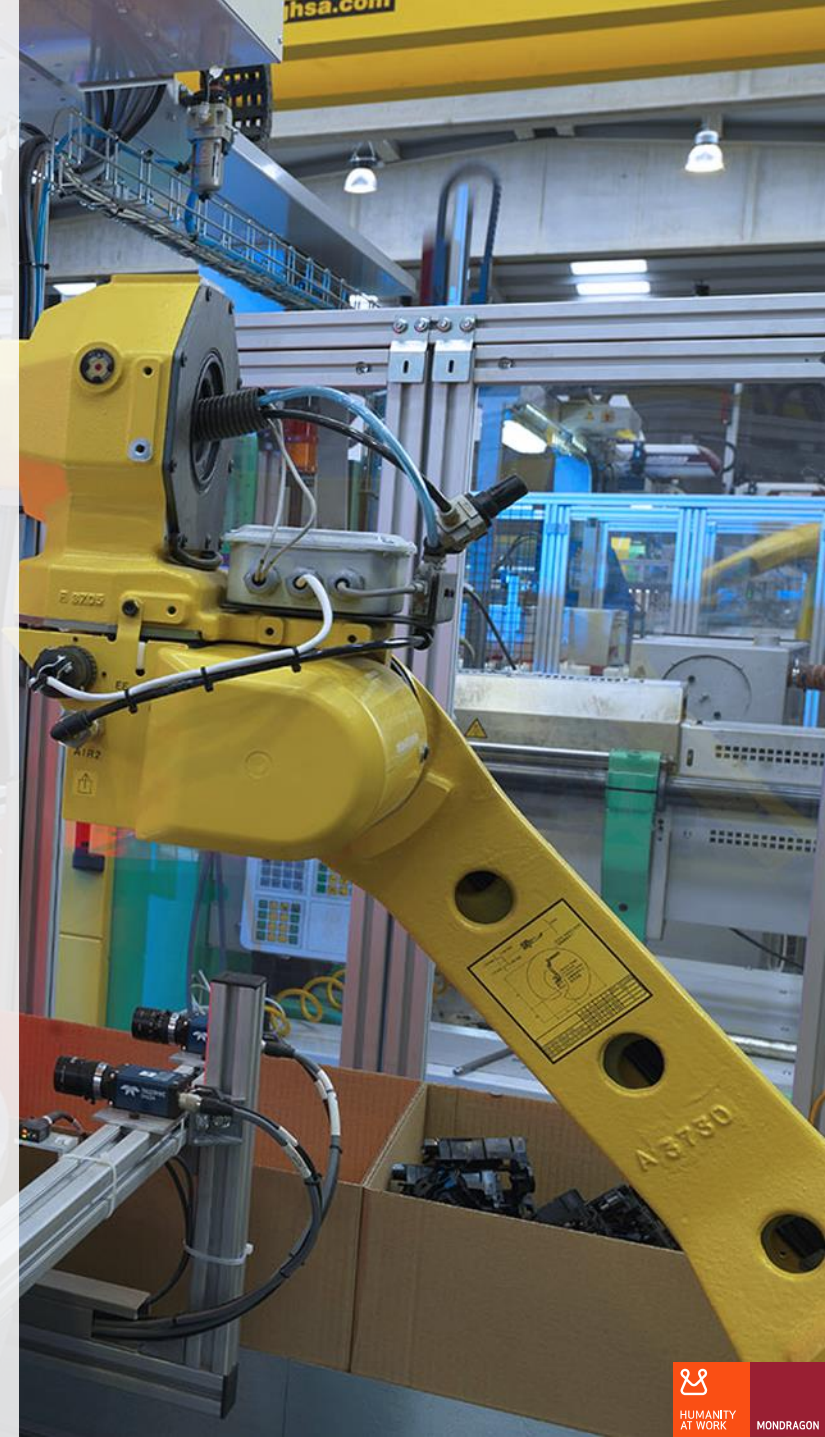

# Why trust in Erreka?

03

We industrialize all our innovations.

We are not satisfied with just visualizing or devising innovations: our industrial character means we have the capacity to make them a reality.

---

# Why trust in Erreka?

04

---

We are true partners.

We grow for you and with you. We believe in collaboration, both internally and externally. We are committed to our project, and to yours. We want to see you grow, so we too can evolve and improve.

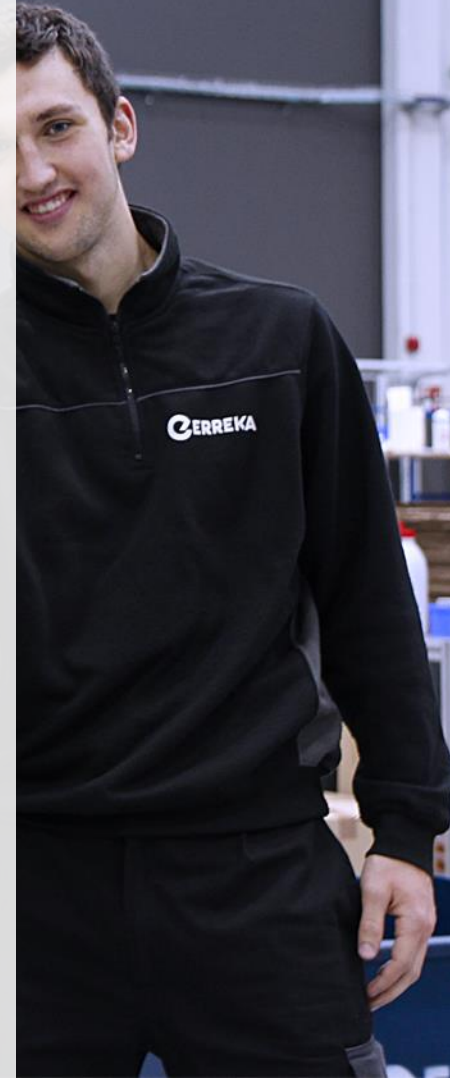

# Why trust in Erreka?

05

Committed to our environment.

We work with and for people. We believe in what we do, and one of our main goals is to maximize development and well-being wherever we operate.

# Why trust in Erreka?

06

Guaranteed quality.

Erreka has been working on continuous improvement for a number of years, managing areas as diverse as quality, the environment, occupational safety, the Basque language and the advanced management model.

---
